Welding Services  
Professional Trade

Loader / Payloader  
Backhoe  
Grader  
Discer / Cultivator

Organizational Assistance

An emergency can happen at any time of the year. Whether a tornado in summer, a power outage in the middle of winter, a train derailment of dangerous goods, or a prairie wildfire, emergencies DO happen in rural Saskatchewan. Because of this reality, we are looking for individuals to be part of the Emergency Management Planning Committee. This committee would assist with the development of the plan, and with overall operations in any emergency situation. It's imperative to the success of this plan that everyone is actively involved because if there is an emergency, all of our families need to be kept safe. **Please give serious consideration to this cause.**

Contact the office for more information, or to be included to the list of people willing to be on the front lines with such an essential part of our community's safety.
