**APPROACH AND CULVERT POLICY of the
RURAL MUNICIPALITY OF PRAIRIE ROSE No. 309 #2018-038**

1. The R.M. will provide one approach, including culvert if required, for each quarter section. The R.M. will provide a second approach, including culvert if required, when the farm site is on the same quarter section.
2. If possible, each approach shall be installed in a location which will not require a culvert.
3. Culverts, when required, may be up to 13 meters if approach access is to a yard site. Additional lengths will be charged to the land owner.
4. Costs of materials for any existing approaches to be widened or additional approaches are charged to the landowner.
5. All approaches, and altering of approaches, must be applied for and approved by council.
6. The municipality will shape, trim & gravel all approaches; however the landowner is to supply the dirt, and cover costs of any required materials, including the culverts. Culverts will remain the property of the municipality.
7. If a new culvert is needed to replace an old culvert in an existing approach, the costs shall be paid for by the municipality and the old culvert is kept by the municipality for use or sale.
8. All used culverts may be sold at a reduced rate by the R.M.
9. An application must be submitted to the R.M. office no later than one week prior to the next regularly scheduled meeting.
10. Final decision of the location of an approach or culvert shall be at the discretion of the Municipal Council.
11. No work shall take place on the municipal road allowance without permission of the Municipality.
12. Culverts or approaches shall not interfere with the natural flow of water. Any deviation must be approved by council, and consent of any affected land owners must be obtained.
